DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, the second switching element turns ON m times in a stepping period during which the first switching element turns ON n times, wherein n is a predetermined integer, and m is an integer between any of zero and n that increases in the every stepping period; and a series regulator that outputs a voltage to the load stepping-down the input voltage with a second selection signal.

Claim 6 recites, inter alia, turning ON the second switching element m times in a stepping period during which the first switching element turns ON n times, wherein n is a predetermined integer, and m is an integer between any of zero and n that increases in every stepping period; and outputting a voltage to the load by inputting the second selection signal to the series regulator.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
